

# Slim PR90

Thanks to its ultra-flat design, the heating panel of the Slim range is hardly visible. It generates heat in a continuous and efficient way, using a small amount of power. It can be used floor-standing or wall-mounted.

## Technical data

This is the ideal solution for bedrooms, offices, halls, storage closets, camper vans and wherever you need a continuous heating at steady temperature (85°C) from a wide surface.

The panel may be painted in the same colour as the wall; when wall-mounted, you can choose whether to place the plug outlet to the right or to the left. It is equipped with an automatic Thermostat.
